*1 Antennas only available if Wi-Fi option is booked.

*2 Other modules not included and must be booked separately. Rackmount slide kit included.

The AIMdefense Firewalls give you the highest possible transparency, protection
and performance to master the security of your network with ease.
Phishing, Malware, Ransomware and other unwanted traffic and attackers are analyzed, cleaned and blocked.
The dramatic increase in bandwidth usage, encrypted data traffic, video deployment and transmission speeds
require an efficient, cost-effective securing of your networks.
For these requirements, the AIMdefense Firewall is your ultimate solution
- all assembled in Germany!

About Secure 2 Fiber
Our company consists of a perfectly coordinated team with years of experience in the B2B distribution of network hardware and cybersecurity solutions. Thanks to a broad network of well-known hardware manufacturers and open source projects, every company can find network solutions in our portfolio that are ideally suited to their individual requirements. In addition to our products, we offer additional services such as hardware consulting, customization, professional installation according to German quality standards and warehousing. Digital. Secure. For every company size.
